PLANET BLUE SCORE

A B C

Ranking:
10.0 – 9.0

4 easy steps to buying your clean valve bag filling

Step 1
Contact us and together we'll thoroughly analyze the requirements for your existing system.

Step 2
Our experts will configure your customized solution and send a quotation.

Step 3
Together we will plan the installation, system start-up and final approval.

Step 4
Together we will bring the machine into operation, fully backed up by our full support, spare parts and consulting.

PLANET BLUE SCORE

In line with the three-pillar model of sustainability we have developed the PLANET BLUE Score to rate our PLANET BLUE products and services.

The three-pillar model of sustainable development is based on the idea that sustainable development can only be achieved through the simultaneous and equal implementation of environmental, economic and social objectives. Only in this way can the ecological, economic and social performance of a society be ensured and improved. The three aspects are interdependent.

The scoring for our PLANET BLUE ranking is from our experts and our customers. Our products and services have been evaluated in terms of ecological, economic and social performance. The average of these three ratings is the final PLANET BLUE SCORE.

PLANET BLUE SCORE			
A	B	C	Ranking: 10.0 – 9.0
A	B	C	Ranking: 8.9 – 7.5
A	B	C	Ranking: 7.4 – 5.0

PLANET BLUE: We as HAVER & BOECKER with our sale of resource-saving technologies and performance kits brings added value for your company. A successful sustainable focus can only work if it brings economical, environmental and social benefits for everyone involved. We offer you the tools with which you can create something useful and profitable and, above all, safety as well as healthy for your people. The term PLANET BLUE should always remind this.
