The ROTO-PACKER® represents more than just HAVER & BOECKER's product name for the biggest selling, bulk packaging system in the world. Our ROTO-PACKER® is known on the market and also by our competitors as a guarantor for six decades of reliable high-performance packaging technology. Congratulations to our engineers for this outstanding performance and thanks to all our customers for the great encouragement! Celebrate the ROTO-PACKER® with us and **enjoy a start-up kit of 1,500 bags, customized to your application** and design free of charge, for each single SEAL spout you order during April of 2020. Regardless of whether you're purchasing a new machine or retrofitting your existing installation, the first bags are on us. The HAVER & BOECKER Institute will design, layout and deliver your perfect bag free of charge to you.
